

# 152 Smog Citations Recorded

County Air Pollution Control District inspectors issued 152 citations and notices of violation during December, Supervisor Kenneth Hahn has reported.

Inspectors investigated more than 2,000 locations during the month and issued 20 notices of violation to stationary sources.

Citations were issued to 132 passenger cars and trucks for excessive smoke. Hahn noted APCD inspectors responded to 76 citizens' complaints and issued 167 notices to apply for permits to operate equipment — a district method designed to insure control of air pollution from industrial and commercial operations in the Los Angeles Basin.

PROSECUTION of 197 violations by the APCD during December resulted in conviction in 96 cases. Sixteen cases involving excessive smoke from motor vehicles were dismissed by the courts upon presentation of proof that the violating condition had been corrected.

Eighty-four vehicle cases five years or older were dismissed to clear the courts' calendars. Deducing these cases, the conviction rate for December was 100 per cent.

Fines for violation were assessed by the courts in the amount of \$2,940.00, which brings total fines assessed this fiscal year to \$21,554.50, Hahn said.

THE AIR Pollution Hearing Board completed action on 20 cases while meeting 16 times during the month; 11 new variances were granted and three extended; one petition was dismissed, four withdrawn and one placed off calendar. The hearing board received 27 new petitions for hearings and set one rehearing on a variance application.
